

Tom Smith

Experienced Full Stack Web Developer

UK based web developer, who's been making high quality websites for more than 15 years. I normally work on a contract basis, with a preference for working remotely.

Reliable, flexible and a fast learner, who can jump into projects at any stage and slot seamlessly into a team.

-  Python3, Django, Flask, Django-CMS
-  Node.js, Express
-  JavaScript ES6, JQuery
-  HTML5, CSS, SASS, LESS

More about me

In addition to making dozens of successful websites, I've advised major charities and trade groups on digital strategy, appeared on BBC radio a few times, rebranded a PLC, content audited an exemplar GDS service, been a *fearsome* cake judge at baking competitions and was a semi-pro gamer... unfortunately, before that sort of thing was cool.
